First Time Ever! 360° Approach to Neuromodulation in Pain

The inaugural edition of ISPNS's Live Operative Workshop & Symposium on 'Neuromodulation in Pain' is poised to be a transformative event in the realm of pain management. Scheduled **from 3rd May to 5th May, 2024**, at AIIMS, Delhi, this workshop carries the theme of 'Neuromodulation for Everyone' and is designed to provide Neurosurgeons expertise in the latest in Neuromodulation like DBS, Focused Ultrasound & Gamma Knife, especially as applicable in different types of pain.

This three-day event covers a wide spectrum of topics crucial to understanding and addressing pain. From the intricate complexities of Cancer Pain to the challenging landscape of Trigeminal Neuralgia and Neuropathic Pain, participants will gain insights into various dimensions of pain management using combination of live operative workshop, Hands-on simulation and didactic lectures to provide a comprehensive learning for participants

The workshop will also feature a dedicated Gamma Knife Workshop, where attendees can immerse themselves in the world of this state-of-the-art technology. It's an opportunity to grasp how Gamma Knife procedures are transforming pain treatment, with a focus on precision and efficacy.

We welcome you to the AIIMS, Delhi for this academic extravaganza.
